Certified Aerobatic Maneuvers include Loops, Rolls, Barrel Rolls, and Spins
Chief Aircraft Engine Instruments
42 Gallons Fuel
705# Useful Load

INSPECTION STATUS

Most recent Condition Inspection Accomplished September 2014

COMMENTS

Nose gear failure September 2002 at 90 hrs TT resulting in nose over. Airframe repaired by A&P with factory new parts. Engine teardown inspection performed by Poplar Grove Airmotive and Propeller OH'd.

Aircraft last flown in 2014. Owner/builder passed away late 2024. Builder's manual, Airframe and Propeller Logs present. While builder's spouse is unable to locate engine log, provided documents validate engine was factory new for build and Poplar Grove IRAN performed after nose over.

Points likely needed to be fly away ready: Condition Inspection, Ship Battery, ELT Battery, Oil & Filter, Tires and Tubes, Transponder Check, and ADS-B as desired.

Aircraft is listed as-is, where-is and is priced as such.
